

February 21, 2013

Mr. Troy Tanner
President
The Home Energy Detective
8816 Cather Avenue
Manassas, Virginia 20110

Dear Mr. Tanner:

On behalf of the U.S. Department of Commerce SABIT Program, we would like to thank you for your contribution to the 2013 SABIT Energy Efficiency in Construction Program. Your organization's participation in our program facilitated an open exchange of ideas and provided the delegation with valuable and practical information to improve the use of energy efficient construction principles and technologies in their home countries. We appreciate the time you took to make the meeting a success and hope that you enjoyed the opportunity to meet with these representatives from Azerbaijan, Georgia, Kazakhstan, Kyrgyzstan, Moldova, Tajikistan, Turkmenistan, and Ukraine.

Since its inception in 1991, the SABIT Program has facilitated numerous professional relationships between the United States and Eurasia. It is our hope that the delegates maintain contact with U.S. companies and organizations after their return home. If your organization requires assistance following up with a SABIT Program delegate, please contact us at (202) 482-0073. Moreover, if a successful relationship does develop with a participant, we would certainly appreciate you sharing this with us. We monitor the development of these relationships to gauge the usefulness of SABIT programming for both our participants and U.S. host companies.

SABIT is a division of the Department of Commerce Market Access and Compliance (MAC) unit. MAC's country desk officers are experts on the commercial, economic, and political climates in their assigned countries. They focus on resolving trade complaints and market access issues, including transparency, contract sanctity and intellectual property. If you believe you or a partner organization is being treated unfairly in a foreign market, please contact SABIT and we will put you in touch with a desk officer or other Commerce official to assist you.

Thank you again for your participation and support of the SABIT Program.

Best regards,

Tracy M. Rollins
